

What I Can't Forget

Jason Blaine

I know this love is over
And there's no turning back
I know I've made some bad mistakes
And I'll have to live with that
And I guess what hurts the most is
When you say you can't recall
Even one good memory
From when we had it all

It's like they never happened
Those good times that we shared
But you and god and I know you were there
It breaks my heart to see you leave
With nothing but regret
Oh why can't you remember what i can't forget

Yesterday meant something
At least it did to me
But I guess are past is just a ghost
That only I can see
I wish that you could face the truth
About the love we had
Look back on the years and say
It wasn't all that bad

It's like they never happened
Those good times that we shared
But you and god and I know you were there
It breaks my heart to see you leave
With nothing but regret
Oh why can't you remember what I can't forget

It's like they never happened
Those good times that we shared
But you and god and I know you were there
It breaks my heart to see you leave
With nothing but regret
Oh why can't you remember
Oh why can't you remember
Oh why can't you remember
What i can't forget
