

Life Is Beautiful

Jason Castro

The days keep rolling into nights
And time keeps moving at the speed of light
Before I knew it I was 24
And with every breath I'm learning more
Every breath I'm learning more

That life is beautiful and I wanna live it fully
Dive into every moment like it's all I've got
Cause every chance it is a gift
To give, to choose, to love you like it counts
Right here, right now
Right here, right now

You see it on a wedding day
And you see it on the newborn's face
You feel it when the sun breaks through
And I feel it when I'm right with you
Yea I feel it when I'm right with you

That life is beautiful and I wanna live it fully
Dive into every moment like it's all I've got
Cause every chance it is a gift
To give, to choose, to love you like it counts
Right here, right now
Right here, right now

No matter what tomorrow brings
I choose to love cause I believe

That life is beautiful and I wanna live it fully
Dive into every moment like it's all I've got

Life is beautiful and I wanna live it fully
Dive into every moment like it's all I've got
Cause every chance it is a gift
To give, to choose, to love you like it counts
Right here, right now
Right here, right now
Right here, right now
Here, right now
Here, right now
