

Sweet Medicine

Jason Castro

I feel a little lost
I feel a little blue
Wish I could dim the lights and find my arms around you
Bury all this space that keeps two hearts apart
And for a moment we'd be diamonds in the dark

Coz you've got it
My reason, my only hope
Believe me, love
Coz you've got it
I need it, I can't stay away
Coz you're my sweet, sweet medicine baby
You're sweet, sweet all of the time
Oh sweet, sweet medicine save me
Save me tonight, save me tonight

I pull close you close to me and kiss you in the dark
It's been so long who will remember where to start
I'll be there when you need to sing a love song
You sing so beautiful, so beautiful you are

Coz you've got it
My reason, my only hope
Believe me, love
Coz you've got it
I need it, I can't stay away
Coz you're my sweet, sweet medicine baby
You're sweet, sweet all of the time
Oh sweet, sweet medicine save me
Save me tonight, save me tonight

Blue sky, baby, kiss me
Blue sky, blue sky
Babe I need your blue skies

oh.. Coz you've got it
My reason, my only hope
Believe me, love
Coz you've got it
I need it, I can't stay away
Coz you're my sweet, sweet medicine baby
Yeah, you're sweet, sweet all of the time
Oh sweet, sweet medicine save me
Save me tonight, save me tonight

Oh.. Save me tonight
