

Time Machine

Jason Chen

In my head I'm going back to all the little stupid things I said
And I'm trying to figure out the moment I lost my head
The combination of senses put us in the red, in the red.

Something inside me pushed to be right
Until I found myself to foregone.

If I only had a time machine
I would take you back to the moment
That you fell in love with me,
You'd stay there forever.

Don't you know that I'd do anything
To make you understand,
Understand that you are everything to me
If I only had a time machine.

Love was the only thing that was ever between us,
Now you're miles away and I'm missing your touch
And the pain inside is just getting to be too much, way too much.

Something inside me had to be right
Until I found myself in the wrong, so wrong.

If I only had a time machine
I would take you back to the moment
That you fell in love with me,
You'd stay there forever.

Don't you know that I'd do anything
To make you understand,
Understand that you are everything to me
If I only had a time machine.

If I could go back and admit I was wrong
I would take it all back and you will still be mine.

If I only had a time machine
I would take you back to the moment
That you fell in love with me,
You'd stay there forever.

Don't you know that I'd do anything
To make you understand,
Understand that you are everything to me
If I only had a time machine.
