Jason Derülo

I'm a little unsure how it got so complicated  
If I let go I know I'll regret it  
Every heart that I held before  
I was sure to break it  
I don't know what she did, but

I just can't stop thinking 'bout you every day  
No, I can't stop now

Look what we started, baby  
You're not what I expected  
Cause all I ever wanted was some fun  
Look what we started, baby  
Used to look for exes  
Cause all I ever wanted was some fun

I never meant to fall in love  
I never meant to fall in lo-ove  
I never meant to fall in love  
I never meant to fall in lo-ove

Cheyenne  
Got the table set for two  
Guess you couldn't make it  
Thought I kissed your lips again  
I was dreaming  
I still believe that night we shared was something sacred  
I try to clear my head, but

I just can't stop thinking 'bout you every day  
No, I can't stop now

Look what we started, baby  
You're not what I expected  
Cause all I ever wanted was some fun  
Look what we started, baby  
Used to look for exes  
Cause all I ever wanted was some fun

I never meant to fall in love  
I never meant to fall in lo-ove  
I never meant to fall in love  
I never meant to fall in lo-ove

Cheyenne, Cheyenne  
Cheyenne, Cheyenne

I just can't stop thinking 'bout you every day  
No, I can't stop now

Look what we started, baby  
You're not what I expected  
Cause all I ever wanted was some fun  
Look what we started, baby  
Used to look for exes  
Cause all I ever wanted was some fun

Cheyenne, Cheyenne
