

# With the Lights On

Jason Derülo

I just wanna freak you with the lights on

Baby, leave them on  
I don't want them off  
When I see them draws  
Pucker, pucker, that's a no  
We gonna make it grow  
Pull it to the side  
You say you can ride  
Baby, join me in my ride

Let me hit in the front  
Let me hit in the back now  
To the middle of the club  
Turn your back to the light now  
I'm unaware, no matter where you at now  
I can't wait to give you what you want

Girl, you know you bad  
Like mikes song right  
Hope you don't mind  
I keep my Nikes on, right  
We can film it all on my iPhone 5  
I just wanna freak you with the lights on

Girl, you know you bad  
Like mikes song right  
Hope you don't mind  
I keep my Nikes on, right  
We can film it all on my iPhone 5  
I just wanna freak you with the lights on

Looking for somebody brand new  
I got FCK I need you, get it?  
You know what I'm tryna do  
I'm like uh, she coming to, get it?

Let me hit in the front  
Let me hit in the back now  
To the middle of the club  
Turn your back to the light now  
I'm unaware, no matter where you at now  
I can't wait to give you what you want

Girl, you know you bad  
Like miles song right  
Hope you don't mind  
I keep my Nikes on, right  
We can film it all on my iPhone 5  
I just wanna freak you with the lights on

Girl, you know you bad  
Like the mikes song right

I'm so glad you came, baby  
But I don't wanna miss a thing, lady  
So I'mma keep the lights on  
We and me at it, on  
Gonna make your body moan  
Till you play this song

You can keep on them heels for me  
'Cause I'mma keep these Nikes on for real, shorty  
So I'mma keep the lights on  
We and me at it, on  
Gonna make your body moan  
Till you play this song

Let me hit in the front  
Let me hit in the back now  
To the middle of the club  
Turn your back to the light now  
I'm unaware, no matter where you at now  
I can't wait to give you what you want
