

Hard to Say It's Over

Jason Donovan

What do you say
when you fall out of love
Tell the truth, or deceive her
Whatever you do
she's gonna get hurt when you leave her

There's never a right time to hear you say
It's only love that causes pain
and the best that I can do
is to walk away from you

Tell me why it's so hard to say it's over
Why do lovers break each other's heart

What do you do
when you run out of love
There's never a right time to show her
How do you tell her
that your love has died, it's all over

It's funny how you hurt the one you love
Living a lie is not enough
So the best that I can do
is to walk away from you

Tell me why it's so hard to say it's over
when to fall in love was easy at the start
Tell me why it's so hard to say it's over
Why do lovers break each other's heart

There's never a right time to hear you say
It's only love that causes pain
and the best that I can do
is to walk away from you

Tell me why it's so hard to say it's over
when to fall in love was easy at the start
Tell me why it's so hard to say it's over
Why do lovers break each other's heart
