

When You Come Back to Me

Jason Donovan

So many people smile on their faces
Armful of presents going to places
There's a chill in the air
As I walk through the night
How I wish I could walk through the windows of time
Would I see happiness there
See your face everywhere
But the lights all go down over London-town
There is a glow in my heart
Even though we're apart
'Cause I know, yes I know
It's just a matter of time

I'm missing your love
Until you come back to me
I'm counting the hours
Until you return
There's a flame in my heart
And when you come back to me
Oh, how the fire will burn

I sit by the fire and try to remember
It won't be long till we're back together
But we're oceans apart
And nothing that I can do
Will speed the passing of time and bring me closer to you
And I keep thinking of you
And it keeps pulling me through
Like the songs that you sing when you're lonely
But there's a glow in my heart
Even though we're apart
'Cause I know, yes I know
It's just a matter of time

I'm missing your love
Until you come back to me
I'm counting the hours
Until you return
There's a flame in my heart
And when you come back to me
Oh, how the fire will burn

Na, na, na....

There's a flame in my heart
And when you come back to me
Oh, how the fire will burn

And I keep thinking of you
And it keeps pulling me through
Like the songs that you sing when you're lonely
But there's a glow in my heart
Even though we're apart
'Cause I know, yes I know
It's just a matter of time

I'm missing your love

Until you come back to me
I'm counting the hours
Until you return
There's a flame in my heart
And when you come back to me
Oh, how the fire will burn

I'm missing your love
Until you come back to me
I'm counting the hours
Until you return
There's a flame in my heart
And when you come back to me
Oh, how the fire will burn
