

You Can Depend on Me

Jason Donovan

You can depend on me
Well, I said that I will be here
and I will never let you down
People come and people go
but you're the one that I wanna know

When you said that you'll be leaving
I didn't try and hold you down
In my mind there's no confusion
'cause you know I'll always be around

When you want me
Don't look anywhere
Don't you know that
I'll be there

When you need me, I'll be waiting
You can depend on my love
Whenever you're in need
you can depend on me

If you're lonely or defeated
I just wanna let you know
turn around, I will be waiting
I could never let you go

Don't ever question
You know the answer
Don't you know that
I'll be there

When you need me, I'll be waiting
You can depend on my love
Whenever you're in need
you can depend on me

You know where to find me when you want me
You can depend on my love
Whenever you're in need
you can depend on me

You can depend on
You can depend on
You can depend on my love
Let you down

When you want me
Don't look anywhere
Don't you know that
I'll be there

When you need me, I'll be waiting
You can depend on my love
Whenever you're in need
you can depend on me

You know where to find me when you want me

You can depend on my love
Whenever you're in need
you can depend on me

When you need me, I'll be waiting
You can depend on my love
Whenever you're in need
you can depend on me
