

# I Will

Jason Eady

I try too hard, I just need to let it go  
I try too hard, I just need to let it go

I think too much, I just don't understand  
I think too much, I just don't understand

Chorus:

But if you won't go I will  
If you won't go I will

I don't see where you don't come around  
I don't see where you don't come around

I lie down and look up to the sky  
I lie down, look up, I lie

(Chorus)

I try too hard, I just need to let it go  
I try too hard, I just need to let it go
