

A Way To See In The Dark

Jason Gray

Here I am
Begging for certainty again
But simple trust
Is what you're asking me to give
If I am saved
You tell me it will not be by sight
So when I pray
I'll close my eyes, I'll close my eyes

I'll reach for your hand in the night
When the shadows swallow the light
'Cause I'm giving up, giving in
Once again a childlike faith
Is my only way
To see in the dark

The question mark
Hung at the end of every fear
Is answered by
The promise that you are with me here
And that's all I've got
When the lights go out and I lose my way
So I'll close my eyes
I won't be afraid, I won't be afraid

As I reach for your hand in the night
When the shadows swallow the light
'Cause I'm giving up, giving in
Once again a childlike faith
Is my only way
To see in the dark

If every star falls and the sun fails to rise
Still in my blindness I'll see
If You are my help, my hope and my vision
One step at a time You will lead

And I'll reach for your hand in the night
When the shadows swallow the light
'Cause I'm giving up, giving in
Once again a childlike faith
Is my only way

So I reach for your hand in the night
When the shadows swallow the light
'Cause I'm giving up, giving in
Once again a childlike faith
Is my only way
To see in the dark
To see in the dark
