

# All I Can Give You

Jason Lancaster

Boxes and bows full of ribbons and clothes,  
set up neatly beneath the tree  
With a tag on each one saying Santa has come,  
but where are the ones from me?  
Oh, how I wanted the lights in your eyes to be mine  
I wanted the look on your face

All I can give is this Christmas song to you  
I just hope that you'll sing it  
Wherever your heart skips a beat when you're thinking of me  
And if the greetings this season will bring leave you searching for meaning  
you will look to the words I have written and you'll be set free

You have to know that I can't let you down  
It's you and me vs the rest of this town  
And when the lights go out I'll still be around to put a bow on some sounds  
That's all I can give you this Christmas

And I know that to you it's just jewelry and shoes  
But to me, they're the smile on your face  
Cause baby you've been the glue and the nails and screws  
that have managed to keep me in place  
So I wanted a gift for my lady in white  
but all I could bring you tonight...

All I can give is this Christmas song to you  
I just hope that you'll sing it  
Whenever your heart skips a beat while you're thinking of me  
And if the greetings this season will bring leave you searching for meaning  
You will look the words I have written  
and you'll be set free

You have to know that I can't let you down  
It's you and me vs the rest of this town  
And when the lights go out I'll still be around to put a bow on some sounds  
(but that's all I can give you...)  
And I'm hoping that a melody will let you know  
that I'm waiting for a Christmas kiss with mistletoe

Cause baby that's all I can give is this Christmas song to you  
I just hope that you'll sing it  
Whenever your heart skips a beat when you're thinking of me  
And the greeting this season will bring leave you searching for meaning  
You'll look to the words I have written and you'll be set free  
You have to know that I can't let you down  
It's you and me vs the rest of this town  
And when the lights go out

I'll still be around to put a bow on some sounds  
But that's all I can give you this Christmas
