## **Angel Of Broken Hearts**

## **Jason Michael Carroll**

How do I move on from here
When everything I lost is what I want
This ocean left inside of me
Has become her memory's favorite place to haunt

How can the best I ever had Hurt so bad, hurt so long You know I'm not that strong

Angel of broken hearts Where on earth are you tonight? Help me find a place to start To get me over her

Maybe I mistreated love
Have I not suffered long enough?
Angel of broken hearts
Take this pain away, take this pain away

Some days I think that I've come through The worst of it and I'm on the healing side And then she kicks up like a dust bowl wind And covers up my mind

I lose hours, I lose days In the haze of used to bes And then I'm on my knees

Angel of broken hearts Where on earth are you tonight? Help me find a place to start To get me over her

Maybe I mistreated love
Have I not suffered long enough?
Angel of broken hearts
Take this pain away, take this pain away

I've paid with prayers, I've paid with tears
But I'll probably pay for years
I could use a little mercy here

Angel of broken hearts Where on earth are you tonight? Help me find a place to start To get me over her

Maybe I mistreated love
Have I not suffered long enough?
Angel of broken hearts
Take this pain away, take this pain away

Oh, angel Come and take this pain
