

# We Threw It All Away

Jason Michael Carroll

Baby  
Come take a look  
At this dusty yearbook  
Do you remember those two kids?  
Its you and me  
Most likely to succeed  
Had it all planned out yes we did

You were off to college gonna practice law  
And I was gonna play football

But we threw it all away  
Thats what the whole town had to say  
Mama cried, daddy went for a drive  
And the whole world changed  
Not a clue what to do  
So I just kept on loving you  
On the day  
That we threw it all away

That fall came and went  
And so did our friends  
Off doing all the things we thought we would  
It was tough I know  
But we never let go  
Kept holding on to prayers we thought we could  
And in that morning in december baby  
Dont you remember?

When we threw it all away  
Thats what the whole town had to say  
With your baby blue eyes  
Our baby boy cried  
And the whole world changed  
Not a clue what to do  
So I just kept on loving you  
On the day  
That we threw it all away

Aint it funny how life works out sometimes  
Just like we planned  
You make all the rules in this house  
And I'm quarterbacking for our little man

You were off to college  
Gonna practice law  
And I was gonna play football

But we threw it all away  
Thats what the whole town had to say  
Mama cried, daddy went for a drive  
And the whole world changed  
Not a clue what to do  
So I just kept on loving you  
On the day  
That we threw it all  
God bless the day

We threw it all away  
Yeah we threw it all away
