I Never Knew You

Jason Mraz

Tell me a secret, tell me anything What's your weapon? what's your middle name? What do you believe in? what's your animal? Are you a cat or a dog person? What's your outlook? what's your favourite saying?

Hey, maybe you laugh, maybe you laugh a lot Maybe you started, but you somehow quit the part mm And you may be a hippie and a democrat, Yeah I remember that, I think And you might like wine, but you're not the type who likes to drink

Why make me, forget everything I know? All my beliefs, replaced by scenarios Of unintelligent life, echoing in stereo On invisible mics, winding to my mind So I would like another look inside you, Yeah I would love the chance to love you, like I've never known you

Yeah, maybe you're sleeping on a telephone. And maybe you're dreaming of an anglophone with a crooked smile And maybe your profile, posts a brand new nose And maybe your new job, it requires that you cannot wear any clothes.

Why make me, forget everything I know? All my beliefs, replaced by scenarios Of unintelligent life, echoing in stereo On invisible mics, winding to my mind So I would like another look inside you, Yeah I would love the chance to love you, like I've never known you

Maybe your favourite colour is brown, And maybe your crying and you're not sure why Maybe you're living in a whole new town And maybe you're back with your old boyfriend and you're busy going down.

Why make me, forget everything, All my beliefs, are my memories All the episodes of you, especially the ones that hurt And the few that made me laugh Well I can't get them back, That's why I'm asking for some more of you now Yes I would love the chance to love you And I would love to love you!

Why make me, forget everything I know? All my beliefs, replaced by scenarios Of unintelligent life, echoing in stereo On invisible mics, winding to my mind So I would like another look inside you, Yeah I would love the chance to love you, like I've never known you

I would, I would, I would love to look inside of you
