

# The Freedom Song

Jason Mraz

I picture something is beautiful  
It's full of life and it is all blue  
I've seen the sunset on the beach, yeah  
It makes me feel calm, when I'm calm

I feel good  
When I feel good I sing  
And the joy it brings makes me feel good  
And when I feel good I sing  
And the joy it brings

Come on along, I know you really want to feel our song  
We've got some life to bring  
We've got some joy in this thing  
Come on along, I know you really want to feel our song  
We've got some life to bring  
We've got some joy in this thing

I see birds fly across the sky, yeah  
And everyone's heart flies together  
Food is frying and people smiling  
Like there is no other way...

To feel good (good)  
and when I feel good I sing (sing)  
And the joy it brings makes me feel good (good)  
And when I feel good I sing (sing)  
And the joy it brings

Come on along, I know you really want to feel our song  
We've got some life to bring  
We've got some joy in this thing  
Come on along, I know you really want to feel our song  
We've got some life to bring  
We've got some joy in this thing

I feel good  
And when I feel good I sing  
And the joy it brings makes me feel good  
And when I feel good I sing  
And the joy it brings

It brings me freedom (freedom), woah,  
got to get yourself to that freedom  
It's freedom  
Singing freedom (freedom) woah,  
you deserve your freedom  
It's a smile you can keep in your heart  
Freedom, woah,  
Everybody got to know freedom  
Love to feel in it beauty  
Freedom, woah,  
got to get to someone,  
Got to get to someone,  
Got to get to someone,  
Got to get to someone freedom  
Freedom, woah,

everybody know freedom  
It's freedom, come on, try to sing  
Freedom, woah, everybody got to know freedom  
Break it down

Get you (7x) that freedom

Come on along, I know you really want to feel our song  
We've got some life to bring  
We've got some joy in this thing
