Back With Me

Jason Reeves

If time was moving backwards
The smoke would turn to trees
And ice would melt from water
And rivers run from seas
And fall would follow winter
And summer'd turn to spring
And you'd be back with me

If I'd paid more attention
Heard every word you said
If I'd thought about you more
And me a little less
And if I would have noticed
The things I didn't see
Then you'd be back with me

Back in these arms
That are empty without you
Back in my world
That revolved around you
Tears would run back
To my eyes
The rain would fall up
To the sky

If our love was a movie
And I saw it in reverse
The end would never happen
Cause goodbye'd come first
And all this pain I'm feeling
Would turn to ecstasy
And you'd be back with me
You'd be back with me
