

Dream

Jason Reeves

Sweet darling
I can see
You're eyes are heavy quick
I'm tucking you in

Dream darling
Dream with me
We'll pretend the sky is
Is our beach
And walking slowly through this
Star filled ocean laughing
Wave crashing in our feet

I know who that
Everywhere is heaven
When you're there with me

So darling dream
Just close your eyes
Darling dream

And I need you there

Just sleep darling
And I can see
That we had a real long day
I'm getting the lights

Don't worry you about me
I can find my way through this darkness
Walking slowly through my
Star filled ocean laughing
Wave crashing in my feet

I know that soon enough
I'll find you
And we'll be so free

So darling dream
Just close your eyes
Darling dream

I need you there, yeah
