

Pretty Eyes

Jason Reeves

As we were driving
You turned your head around
And looked right at me
You couldn't see the road
And it was scaring me
How beautiful you are
When you get crazy
'Cause I have never felt so weak

Maybe I would disappear without you
Maybe I would fall into the sky
But I'm in heaven
Orbiting around you
And your pretty eyes
Your pretty eyes

We took the highway that curves
Along the ocean on a Friday
Mmm, Mmm, Mmm
The sun was falling down
And you were shining
The rhythm of the waves
Was keeping time as
You were singing this

Maybe I would disappear without you
Maybe I would fall into the sky
But I'm in heaven
Orbiting around you
And your pretty eyes
Your pretty eyes

Look at all the stars
Up in the sky
They look alive

I wonder what's on
The other side
It's full of light

Maybe I would disappear without you
Maybe I would fall into the sky
But is heaven here
Just orbiting around you?
And your pretty eyes
Pretty eyes

Maybe I would disappear without you
Maybe I would fall into the sky
But I'm in heaven
Orbiting around you
And your pretty eyes
Pretty eyes
Pretty eyes

Pretty eyes
