

# Sticks & Stones

Jason Reeves

Tell me what I did  
To push you off the cliff  
You can try to take my hand  
But I'm not coming with you

Say what you like  
Just look me in the eye  
You can pull out your knife  
It's not as sharp as mine

Oh, Sticks and stones  
Are never gonna break me  
Never gonna hurt me  
Never gonna shake me out  
I'm a rock at the top  
Never breaking  
Try what you want  
But you're never gonna take me  
Down, down, down  
Try, try but you're never gonna take me  
Down, down, down  
Give it up  
You should know by now

I don't want protection  
If it's with conditions  
Took a new direction  
Losing all conviction

Say what you like  
Just look me in the eye  
You can pull out your knife  
It's not as sharp as mine

Oh, Sticks and stones  
Are never gonna break me  
Never gonna hurt me  
Never gonna shake me out  
I'm a rock at the top  
Never breaking  
Try what you want  
But you're never gonna take me  
Down, down, down  
Try, try but you're never gonna take me  
Down, down, down  
Give it up  
You should know by now

Don't you play the fool  
I know you want revenge  
There's no use pretending  
I know what you did

Oh, Sticks and stones  
Are never gonna break me  
Never gonna hurt me  
Never gonna shake me out

I'm a rock at the top  
Never breaking  
Try what you want  
But you're never gonna take me  
Down, down, down  
Try, try but you're never gonna take me  
Down, down, down  
Give it up  
You should know by now

Sticks and stones  
Are never gonna break me  
Never gonna hurt me  
Never gonna shake me out  
I'm a rock at the top  
Never breaking  
Try what you want  
But you're never gonna take me  
Down, down, down  
Try, try but you're never gonna take me  
Down, down, down  
Give it up  
You should know by now

Give it up  
You should know by now  
Hey  
Hey
