

## Dying Star

Jason Upton

You've got your best man on the front side  
You always show your best side  
And evil's always on the other side  
You say this is your strategy  
But son I hope you take it from me  
You look just like your enemy  
You're full of pride  
We better trash our idols if we want to be  
In the army of the Lord  
And the greatest idol is you and me,  
We better get on the threshing floor  
When will we learn that God's strategy  
Is giving glory to the Lord?  
We better trash our idols if we want to be  
In the army of the Lord

Star how beautiful you shine  
You shine more beautiful than mine  
You shine from sea to shining sea  
World-wide is your strategy  
But shinning star I hope you see  
If the whole wide world is staring straight at you  
They can't see me...
