

When It Thunders

Jason Upton

Baby look up there's our star in the middle of the sky
Shining where we are to comfort you and I
While I hold you in the dark I hope you see the light
And the passion of my heart in this simple lullaby

Daddy don't sleep daddy don't slumber
I don't wonder when it thunders
If I'm safe in daddy's arms (repeat)

Daddy look up there's our star I hear you say to me
Something deep inside says I never want to leave
So I need for you to know whenever I go
God is in control and you are in His arms
