When It Thunders

Jason Upton

Baby look up there's our star in the middle of the sky Shining where we are to comfort you and I While I hold you in the dark I hope you see the light And the passion of my heart in this simple lullaby

Daddy don't sleep daddy don't slumber I don't wonder when it thunders If I'm safe in daddy's arms (repeat)

Daddy look up there's our star I hear you say to me Something deep inside says I never want to leave So I need for you to know whenever I go God is in control and you are in His arms
