

Will Of God

Jason Upton

I'm tired of living in this world of sin
Tired of living in this game we're in
Been to town and now I'm back again tired of living for the pride of men
And the world may think I'm crazy when I don't run with them
But it's just plain idolatry, when God can't have all of me

I want to live for the will of God
Oh Lord, I want to follow
With all of my mind, all my heart and all my soul
I want to follow you Oh Lord

How much time will I keep wasting?
How much cheap wine will I keep tasting?
Been to church and now I'm back again
Tired of living for the pride of men
And the world may think I'm crazy when I don't run with them
But it's just plain idolatry when God can't have all of me
