

# Remember Tonight

Jason Walker

Some people live like an apology  
Like someone's watchin what they'd do  
And look at time like it's an enemy  
Just something they gotta get through

But we don't have to play by the rule  
We don't have to live like they do  
Tonight

You and me,  
Tonight we're living like kings and queens  
Tonight we're gonna run these streets  
So baby forever, gonna remember where we were  
We once stood about the world  
Watchin the city lights swirl  
Oh baby forever gonna remember tonight

I want it all to be a photograph  
Yes, I grow out in a movie  
I wanna feel this moment when I look back  
Baby, that's how it should be

(We don't have to let it disappear  
It doesn't have to end right here  
Tonight

You and me,  
Tonight we're living like kings and queens  
Tonight we're gonna run these streets  
So baby forever, gonna remember where we were  
We once stood about the world  
Watchin the city lights swirl  
Oh baby forever gonna remember tonight, tonight...

(We're gonna remember)  
Tonight...  
(We're gonna remember)  
Tonight...  
Tonight
