

# Won't Stop Getting Better

Jason Walker

When I thought it couldn't get much better  
All the pieces seem to come together  
And every single star aligns  
Good to have a little piece of mind  
It just came to be that  
How did it get so easy

It won't stop getting better  
And I'm hoping its gonna last forever  
Whooooa  
The sun won't stop getting brighter  
My feet are getting lighter  
I am floatin' like a feather  
It won't stop getting better  
It won't stop getting better  
Whoa no

Its like I'm living on a silver lining  
Yeaaaah  
It's like the world just won't stop smiling  
As every single star alights  
It's just perfect time  
I still can't believe it  
How did it get so easy

It won't stop getting better  
And I'm hoping its gonna last forever  
Whooooa  
The sun won't stop getting brighter  
My feet are getting lighter  
I am floatin' like a feather  
It won't stop getting better

Keeps on getting sweeter  
It's filling me up  
And it feels so good  
Yeah, feels so good

It won't stop getting better  
And I'm hoping its gonna last forever  
Whooooa  
The sun won't stop getting brighter  
My feet are getting lighter  
I am floatin' like a feather  
It won't stop getting better  
It won't stop getting better
