

# You Fill My Heart

Jason Walker

When I saw your face  
It was like a space  
In my heart was filled  
It's like I knew  
From the very start  
That you were every other part of me

It's like I have loved you since  
From the moment when  
Since time began  
You fill my heart

Oh, love of mine  
Why did it take so long to find  
Your touch  
Hope was never gone  
Even though it took so long  
To find you

Because I have loved you since  
From the moment when  
Since time began  
And I have loved you since  
From the moment when  
Since time began  
You fill my heart

And I have loved you since  
From the moment when  
Since time began  
And I have loved you since  
From the moment when  
Since time began  
And I have loved you since  
From the moment when  
Since time began  
You fill my heart
