

# Dance For Me

Javier Colon

Let me play you something to make you keep your body moving  
Winding, keeping my attention  
Girl, if I keep playing, will you keep doing what you doing?  
Ooh, wee, so much more than sexy

She's inspiration  
Every twist of your waist  
Yeah

Makes the chord that I play  
Change  
Like you're controlling me  
Strange

Effectuation  
Started to kick in  
I wanna strum you  
Like this guitar in my hands

But for now I  
Wanna watch you dance for me  
'Cause you know you're gonna wind up  
Coming home with me but for now, baby

Wanna watch you dance for me  
Dance for me, just for me  
Later we'll be making love  
But for now, girl just dance for me

Let me play you something, yeah  
Dancing, keep you wanting  
This here strumming, stroking  
Imagination

When we take this to the crib  
Let the music take your inhibition  
Willfully  
But now just dance for me

She's inspiration  
Every twist of your waist  
Uh

Makes the chord that I play  
Change  
Like you're controlling me  
Strange

Infatuation  
Started to kick in  
I wanna strum you  
Like this guitar in my hands

But for now I  
Wanna watch you dance for me  
'Cause you know you're gonna wind up  
Coming home with me but for now, baby

Wanna watch you dance for me  
Dance for me, just for me  
Later we'll be making love  
But for now, girl just dance for me

It's so  
Hard to concentrate  
And girl, you're making it hard for me  
I can't take my eyes away

Senorita, like to meet ya  
Baby, after I'm through  
You'll know what I wanna do  
Later on

I wanna watch you  
Dance for me  
'Cause you know you're gonna wind up  
Coming home with me but for now, baby

Wanna watch you dance for me  
Dance for me, just for me  
Later we'll be making love  
But for now, girl just dance for me

Wanna watch you dance for me  
'Cause you know you're gonna wind up  
Coming home with me but for now, baby

Wanna watch you dance for me  
Dance for me, just for me  
Later we'll be making love  
But for now, girl just dance for me

I wanna strum you this guitar in my hands

But for now I  
Wanna watch you dance for me  
'Cause you know you're gonna wind up  
Coming home with me but for now, baby  
Dance for me
