

Dance For Me

Javier Colon

Let me play you something to make you keep your body moving
Winding, keeping my attention
Girl, if I keep playing, will you keep doing what you doing?
Ooh, wee, so much more than sexy

She's inspiration
Every twist of your waist
Yeah

Makes the chord that I play
Change
Like you're controlling me
Strange

Effectuation
Started to kick in
I wanna strum you
Like this guitar in my hands

But for now I
Wanna watch you dance for me
'Cause you know you're gonna wind up
Coming home with me but for now, baby

Wanna watch you dance for me
Dance for me, just for me
Later we'll be making love
But for now, girl just dance for me

Let me play you something, yeah
Dancing, keep you wanting
This here strumming, stroking
Imagination

When we take this to the crib
Let the music take your inhibition
Willfully
But now just dance for me

She's inspiration
Every twist of your waist
Uh

Makes the chord that I play
Change
Like you're controlling me
Strange

Infatuation
Started to kick in
I wanna strum you
Like this guitar in my hands

But for now I
Wanna watch you dance for me
'Cause you know you're gonna wind up
Coming home with me but for now, baby

Wanna watch you dance for me
Dance for me, just for me
Later we'll be making love
But for now, girl just dance for me

It's so
Hard to concentrate
And girl, you're making it hard for me
I can't take my eyes away

Senorita, like to meet ya
Baby, after I'm through
You'll know what I wanna do
Later on

I wanna watch you
Dance for me
'Cause you know you're gonna wind up
Coming home with me but for now, baby

Wanna watch you dance for me
Dance for me, just for me
Later we'll be making love
But for now, girl just dance for me

Wanna watch you dance for me
'Cause you know you're gonna wind up
Coming home with me but for now, baby

Wanna watch you dance for me
Dance for me, just for me
Later we'll be making love
But for now, girl just dance for me

I wanna strum you this guitar in my hands

But for now I
Wanna watch you dance for me
'Cause you know you're gonna wind up
Coming home with me but for now, baby
Dance for me
