Dance For Me

Javier Colon

Let me play you something to make you keep your body moving Winding, keeping my attention Girl, if I keep playing, will you keep doing what you doing? Ooh, wee, so much more than sexy She's inspiration Every twist of your waist Yeah Makes the chord that I play Change Like you're controlling me Strange Effectuation Started to kick in I wanna strum you Like this guitar in my hands But for now I Wanna watch you dance for me 'Cause you know you're gonna wind up Coming home with me but for now, baby Wanna watch you dance for me Dance for me, just for me Later we'll be making love But for now, girl just dance for me Let me play you something, yeah Dancing, keep you wanting This here strumming, stroking Imagination When we take this to the crib Let the music take your inhibition Willfully But now just dance for me She's inspiration Every twist of your waist Uh Makes the chord that I play Change Like you're controlling me Strange Infatuation Started to kick in I wanna strum you Like this guitar in my hands But for now I Wanna watch you dance for me 'Cause you know you're gonna wind up

Coming home with me but for now, baby

Wanna watch you dance for me Dance for me, just for me Later we'll be making love But for now, girl just dance for me

It's so Hard to concentrate And girl, you're making it hard for me I can't take my eyes away

Senorita, like to meet ya Baby, after I'm through You'll know what I wanna do Later on

I wanna watch you Dance for me 'Cause you know you're gonna wind up Coming home with me but for now, baby

Wanna watch you dance for me Dance for me, just for me Later we'll be making love But for now, girl just dance for me

Wanna watch you dance for me 'Cause you know you're gonna wind up Coming home with me but for now, baby

Wanna watch you dance for me Dance for me, just for me Later we'll be making love But for now, girl just dance for me

I wanna strum you this guitar in my hands

But for now I Wanna watch you dance for me 'Cause you know you're gonna wind up Coming home with me but for now, baby Dance for me
