

All About Us

Javine

Too long i thought i could buy everything
That was needed to make me happy but i was so wrong
I did not realise that money could not buy completeness
Something was missing

Then you stepped into my life
And you made my whole world right
And you shone a positive light onto everything i see

Its all about me
Its all about you
Its all about late at night when we hold on tight and wot were
gonna do

Its all about me
Its all about you
Cuz i've found out wot it's all about
Its all about us
Its all about us

So long i chased a dream
I thought all that i needed money could buy
Cuz i grew up in a material world
It took some time to see thru and find you
Then you stepped into my life
And you made my whole world right
And you shone a positive light onto everything i see

All the hope, all the fear thru every year
All the joy, all the pain thru every tear
We'll be strong, we'll be here thru every year
We're gonna get thru
Cos there aint no doubt now we found
Out wot it's all about
