

Friend called today
Said "No more no way"
He saw things different today
Ran out of trust
The world ain't big enough
For a feeling man with a plan
Dreams die today
Too much hassle too much risk
Do you call this living really!

Inside the holes your digging

No more disappointments
Please remain seated
Your number's coming

Do not question these commands
Just walk the dog
Be a bump on a log
Watch tv until you're blind

Everyone's equalized
See the look in their eyes

No more vital signs they're gone
We've got a new dream
We're on the winning team
We're going to sleep our way through hell
