

## Equalized

Jawbreaker

Friend called today  
Said "No more no way"  
He saw things different today  
Ran out of trust  
The world ain't big enough  
For a feeling man with a plan  
Dreams die today  
Too much hassle too much risk  
Do you call this living really!

Inside the holes your digging

No more disappointments  
Please remain seated  
Your number's coming

Do not question these commands  
Just walk the dog  
Be a bump on a log  
Watch tv until you're blind

Everyone's equalized  
See the look in their eyes

No more vital signs they're gone  
We've got a new dream  
We're on the winning team  
We're going to sleep our way through hell
