

I.O.U My Love

Jay-Jay Johanson

If you just stop and listen
Then you might hear the words
That i've been trying to tell you
I guess you never heard

There's something about you baby
I don't know what it is
Can't put my finger on it
I.o.u. my love

I'm driving to the city
Let's meet in the arcade
I show you what i'm made of
Pretend you never paid

There's something about you baby
I don't know what it is
Can't put my finger on it
I.o.u. my love

It's getting past eleven
When are you gonna come
Feels like i've waited forever
A double bed for one

There's something about you baby
I don't know what it is
Can't put my finger on it
I.o.u. my love
