

## Keep It A Secret

Jay-Jay Johanson

You know I'm not a single man  
But anyway you think you can  
Come up to me and make a try  
By saying make this a night to remember

What you said to me  
What you did to me  
What you wanted me to do  
What you said last night  
When you came up tight  
What was I supposed to do

I don't know what made you believe  
My simple heart could be so weak  
That I could fall for your offence  
In saying make this a night to remember

What you said to me  
What you did to me  
What you wanted me to do  
What you said last night  
When you came up tight  
What was I supposed to do

Don't worry, don't worry  
You know my lips are sealed
