

So Tell The Girls That I Am Back In Town

Jay-Jay Johanson

I've been on the road
I've been on vacation
I've been traveling light
To reach my final destination

Now I'm coming home

So tell the girls that I am back in town
You'd better tell them to beware
Where they may go or they might try to hide
I follow on and I'll be there

So tell the girls that I am back in town
And if it's true I do not know
That every girl around had missed me since
I decided to go

I could be your friend
I could be your stranger
I could be the one your mother said would be your danger
Now it's up to you

So tell the girls that I am back in town
You'd better tell them to beware
Where they may go or they might try to hide
I follow on and I'll be there

So tell the girls that I am back in town
And if it's true I do not know
That every girl around had missed me since
I decided to go

Now I'm coming home

So tell the girls that I am back in town
You'd better tell them to beware
Where they may go or they might try to hide
I follow on and I'll be there

So tell the girls that I am back in town
And if it's true I do not know
That every girl around had missed me since
I decided to go
