

# Tomorrow

Jay-Jay Johanson

Tomorrow

I will try to be more positive

All the troubles

That's been hurting me

Will hopefully be gone

Tomorrow

You consider coming back to me

It will honestly be nice to see

Hope it won't be long

And I just can't wait

For the turn of my fate

Come on let's celebrate

Cause it's gonna be great

Oh I wish you were already here

Tomorrow

I will write a letter to my friends

I will tell them I've been missing them

'Specially when I'm low

Tomorrow

I will make a phonecall to my mum

And I promise I will be back home

Very soon to you

And I just can't wait

For the turn of my fate

Come on let's celebrate

Cause it's gonna be great

Oh I wish you were already here
