Close to You

Baby girl lay your body down on the bed Let me cater to you And all them fantasies going on in your head Imma do 'em to you

I know what you plan to do girl You're just like an animal So just do what's so natural to you Cause you don't know how many times I've been thinking about you

I wanna get close close close close closer to you Close close closer to you Close close close close closer to you Close close closer to you

I wanna get Closer to I wanna get Closer to

Say baby you should drop the act And maybe we should start again Cause girl you know I'm here for that So are you

And I know I know I know what you plan to do You're just like an animal So just do what's so natural to you Cause you don't know how many times I've been thinking about you

I wanna get close close close close closer to you Close close closer to you Close close close close closer to you Close close closer to you

You got something that I ain't seen before (I wanna get) That only makes me want you more (closer to) Let me put it down like I'm supposed to do (I wanna get) Cause I just wanna get close to you (closer to)

You got something that I ain't seen before (I wanna get) That only makes me want you more (closer to) Let me put it down like I'm supposed to do (I wanna get) Cause I just wanna get close to you (closer to)

I wanna get I wanna get close to you I wanna get close to you
