

# Fire

Jay Sean

Ah oh she's fire fire oh  
you know she's fire fire oh (2x)

k Nobody do it like she do  
Anything just to please you  
and she doesn't mean to it comes naturally  
I cant lie she sees through me  
The way that she moves me  
Her beauty's not everything  
Everything

She don't know what she does  
That's why I'm into her  
I just melt with her touch (when I get close to her)  
I just cant get enough (when I'm alone with her)  
And I can feel myself burning

Cause that girl is fire, fire, fire  
That's why I desire, sire, her (2x)

Ah oh she's fire fire oh  
you know she's fire fire oh (2x)

Sometimes I catch myself staring  
As your doing your hair in the mirror (and I just cant leave you alone)  
Some will get up and just grab you  
I'm so glad that I have you  
I found you  
Lets do it right here and right now

She don't know what she does  
That's why I'm into her  
I just melt with her touch (when I get close to her)  
I just cant get enough (when I'm alone with her)  
And I can feel myself burning

Cause that girl is fire, fire, fire  
That's why I desire, sire, her (2x)

I cant stop  
I know it's a cliché  
I don't do this everyday  
But let me hear you sing  
Just don't stop  
Cause you're the one that I freak with  
You know my secrets  
Baby I'm burning

Cause that girl is fire, fire, fire  
That's why I desire, sire, her (2x)

Ah oh she's fire fire oh  
you know she's fire fire oh (2x)
