

If I Had A Boat

Jaymay

If I had a boat
I would sail it to the moon
Way up high I would float
In a starry lagoon
And my submarine
Would search in every sea
For golden jellyfish
Who sting like honey bees

If I had a plane
I would soar into a dream
I'd steal lovely visions
Of molecular collisions
Where nothing is what it seems

(And if I had you, I don't know what I'd do)

Oh, I believe I'm a fairy-tale
I fly all around the world
And sometimes little ones believe in me
