

Love You Long Time

Jazmine Sullivan

Nobody ever love me, quite like you
Your love is like

I got a real good dude and he loves me a lot
And ain't no other man is gonna take his spot
And I, I'm so happy you're mine
So I'mma love you love time

Let me love you long time
Let me love, let me love you long time
So let me love, let me love you long time
Let me love, let me love you long time

Let me love you long time
Let me love, let me love you long time
So let me love, let me love you long time
Let me love, let me love you long time

I never knew someone like you, oh no
And I never felt the way I do before, before, before

I don't wanna loose you
What if I misuse you
If you ever left
Babe I swear i would lose it
Maybe I should cool it
I know I'm acting kinda foolish
Nobody ever love me, quite like you

I got a real good dude and he loves me a lot
And ain't no other man is gonna take his spot
And I, I'm so happy you're mine
So I'mma love you love time

Let me love you long time
Let me love, let me love you long time
So let me love, let me love you long time
Let me love, let me love you long time

Let me love you long time
Let me love, let me love you long time
So let me love, let me love you long time
Let me love, let me love you long time

This is the sweetest thing I know, for sure
And you, you give me reason, reason to hold on, hold, hold on

I don't wanna loose you
What if I misuse you
If you ever left
Babe I swear I would lose it
Maybe I should cool it
I know I'm acting kinda foolish
Nobody ever love me, quite like you

I got a real good dude and he loves me a lot
And ain't no other man is gonna take his spot

And I, I'm so happy you're mine
So I'mma love you love time

Let me love you long time
Let me love, let me love you long time
So let me love, let me love you long time
Let me love, let me love you long time

Let me love you long time
Let me love, let me love you long time
So let me love, let me love you long time
Let me love, let me love you long time
