

Beautiful Day

Jazzamor

It's a beautiful day
Here on the in- and
There on the outside
Let me take you away
So we can breathe fresh air
Out there along the landside
Cause in the city I got

High tides in my veins
And I got
Low tides in my brains
This fight's driving me insane
Don't you play with the fire
When you feel the flame

I got

I'm over here
Nowhere, nowhere, nowhere
And I've got
So much time to share
With you, with you

Come on get down
Down, down, down

It's a beautiful day
