

## Way Back

Jazzamor

No looking back  
Face the facts you said  
Fait accompli (it's over)  
Get out of my face  
I prayed

Remembering the old schoolyard  
Cheek to cheek and heart to heart  
You and me so crazy  
Really thrilled to bits

We've been young and we've been free  
Been having confidence in love and honesty

Hey babe  
The simple things and time were on our side  
Way back when love was on your mind  
Was on your mind

Friday night we made grade  
Dressed to kill couldn't hardly wait  
In the early morning rain  
We've been searching for a place to stay  
The old oak gave us shelter then you took my breath away

We've been young and we've been free  
Been having confidence in love and honesty

Hey babe  
The simple things and time were on our side  
Way back when love was on your mind  
Was on your mind
