

# Little Bird

Jazzanova

of all the things I've found in life  
no moment's better than this  
of all the thing I had ever known  
nothing prepared me for your kiss

If we fly, if we fly, if we fly into this song  
of all the things I needed, baby  
you were my cherished one

a little bird told me that you can't find your way home  
a little bird has shown me that you can't run away from love

darkness falls upon the city  
like the ocean falls upon the sand  
waves of sorrow leave me breathless  
can you love this broken man  
if I try, if I try, if I try to love again

I wake up every morning  
not sure of where I stand

a little bird told me that you can't find your way home  
a little bird has shown me that you can't run away from love

open wide my feelings  
and tear me down until I break, yes  
show me what the real is  
guaranteed to seal my faint

if I cry, if I cry, if I cry when you'll be gone, oh  
help me about my sadness  
tell me I'm the only one

hold me, hold me, hold me, angel  
hold me, hold me, hold me, angel

love was only given when you feel it in your heart  
I knew it when you kissed my body  
love in every part

of all the things I had found in life  
no moment's better than this  
of all the thing I had ever known  
nothing prepared me for your kiss

If we fly, if we fly, if we fly into this song  
of all the things I needed, baby  
you were my cherished one

a little bird told me that you can't find your way home  
a little bird has shown me that you can't run away from love
