

Leather

JbDubs

I like a man who can rock his leather
Rock his leather
Rock his leather

I had a dream last night
That blood was dripping from my teeth
I licked my lips and cut the chain
That held my inner beast

I like a man who can rock his leather
Rock his leather
Rock his leather

You want it
Kiss it kiss it
You want it
Want it want it
You want it
Kiss it kiss it kiss it
Get up on it on it

As I unzip this zipper
Leather pulls away like glue
And every button
Pop-pop-popping
Leads me right to you

I like a man who can rock his leather

Rock his leather
Rock his leather

You want it
Kiss it kiss it
You want it
Want it want it
You want it
Kiss it kiss it kiss it
Get up on it on it

And when you get on top
And when you get on top
And when you get on top
Pop pop pop pop pop

We going going for a ride in my Harley

I like a man who can rock his leather
Rock his leather
Rock his leather

You want it
Kiss it kiss it
You want it
Want it want it
You want it
Kiss it kiss it kiss it

Get up on it on it
