

# Take Me

Jean Grae

(Baby) Yea, though through the valley  
In the shadow of darkness, praying to God heartless  
(Take me) Wake me up, don't forsake me  
(Take me) I pray hard, don't leave me waiting, please  
(Baby) Yea, though through the valley  
In the shadow of darkness, praying to God heartless  
(Take me) Wake me up, don't forsake me  
(Take me) I pray hard, don't leave me waiting, please  
Oh lord, I'm having issues, more deep than American missiles  
Shooting commuter planes and filing em missions official  
I've hit depression hard and started to pick at the scabs  
From the scar, I'm a mess addressing pain in a bar, I confess  
'Cause all the rest just mar shit, chest in a cast  
Feeling urges just to test out a casket, bless me I'm blasphemous  
us  
Jesus pass the fifth, I...have to get lit  
Masochist self I'm only half of the health I was born with  
(Baby) Save me, take me up high like 'dro  
But way far past the stars and the sky  
I'm blinding pain like I'm a junkie shooting up with  
Emotional novacaine, I'm floating provoking the angels to jump  
me  
In Lehman's terms, face been blurred, even early  
I scratched crayon in between the holy word I pray on, but still  
l  
(Baby) Three gone, and maybe I'm in barren land  
God help me, I'm having trouble with your master plan so  
(Take Me) Through the shadows of valley of death, God  
(Take me) when I'm shooting, taking last breaths hard  
(Baby) I want to walk through the valleys praying lord  
Will you help me, save me God, won't you tell me, tell me  
(Take me) 'Cause I'm losing my faith, bless me  
(Take me) 'Cause this world just want to test me  
You see this dirty knife on the floor, this chrome nine in my hand  
and  
These foul thoughts in my conscious, constantly under
