

## Color Song (i Lost My Love)

Jean Shepard

White's for the wedding that I'll never see blue is for heartaches  
that he gave to me  
Green were those two eyes that stole him away  
Gray were the darks skies on that tragic day  
Black was the gun that I drew from my side  
Red flood the blood where's my false lover's died  
Brown was the earth that they threw on his grave  
Yellow the flower that over him wave

Black was the robe on the old judge that day  
White was my face when he said you must pay  
Blue are the tears that I shed in myself red are the roses that  
other folks dwell  
Gold was my hair when they first sentenced me it will be silver  
when they set me free  
Gone is the rainbow that shone up above life lost its color when  
I lost my love  
Life lost its color when I lost my love
