## **Come On Phone**

## Jean Shepard

Got me a phone in my home but hand don't fit the handle And I can't think of what number that I know Since I had in store there ain't nobody call me and I can't thi nk nobody I could call So come on phone and play some pretty music you can play and I' ll sing along Come on phone and be a comfort to me I'd like to see you ring r ight off the wall

Got me some things I could say but I got no one to say into And no one ever listens what I am Well there must be someone feels the same way that I feel Sit and waitin' on the other end So come on phone So come on phone
