

## Day To Day (tear To Tear)

Jean Shepard

All my friends told me someday you'd leave me  
But your sweet words of love were all that I could hear  
It's so hard realizing you decieve me now I just live from day  
to day tear to tear  
I had planned on your love last thing a lifetime  
Never dreaming the end could be so near  
Now it looks like I've smiled for my last time  
And I just live from day to day tear to tear  
Day to day tear to tear that's how it goes  
You stand by watching as my heartache grows  
There's no need in me planning on tomorrow  
The end could come any time without you near  
I don't see how I can make it through this sorrow  
So I just live from day to day tear to tear  
Yes I just live from day to day tear to tear
