

## Don't Take Advantage On Me

Jean Shepard

Don't make me a promise and then make me blue don't say you love me if it isn't true

Don't make me cry so much I can't see please don't take advantage of me

You might be the kind who'll just lead me on

Then when I need you most that's when you'll be gone

Don't tell me those sweet lies you know I believe please don't take advantage of me

Ever since I first met you I've been so in love

Day and night it's you that I'm thinking of

So before you hurt me I'm begging you please please don't take advantage of me

You might be the kind...
